HENRIQUE LENGRUBER

+55 55 99963-1800 | henriquerl22@outlook.com | linkedin.com/in/henrique-lengruber | github.com/henriquelengruber

Skills

- **Languages:** JavaScript (ES6+), TypeScript
- **Frameworks/Libraries:** React, Angular, Ionic, Zustand, Material UI, Styled Components, Shadcn
- **Styling:** CSS, Sass, Bootstrap, Tailwind CSS
- **Tools:** Figma, Adobe XD, Storybook, WordPress, Git, Scrum
- **APIs:** Google Maps, Leaflet, React Query, ApexCharts, WebSocket

Professional Experience

Kompa Saúde, Mid-Level Frontend Developer — Jun 2025 – Present

- Developed a large-scale telemedicine system for a project in partnership with the **São Paulo State Health Secretariat** and the **Hospital das Clínicas**, using **Ionic**, **React**, and **Zustand** to impact **millions of citizens**.
- Implemented an **Artificial Intelligence** module for patient pre-triage, streamlining medical diagnosis by processing pre-submitted data and reducing initial consultation time by up to **25%**.
- Utilized **WebSocket** for real-time communication, ensuring the instant display of new patients and status updates in the emergency room.
- Architected the front-end for a patient triage system for **Unimed**, using AI to classify cases by severity, aiming to reduce queues and prioritize critical care.

Delta Global, Junior Frontend Developer — Oct 2024 – Apr 2025

- Optimized custom **React hooks**, reducing **re-renders** in high-cost components and improving overall application **performance** by up to **30%**, impacting **800,000 vehicles**.
- Led a complete refactoring of **responsiveness** with **Styled Components** and **Material UI**, enhancing **UX** on mobile devices.
- Implemented the **Google Maps API** for real-time **geospatial** visualization, monitoring **800,000 vehicles** with dynamic markers.
- Developed **interactive dashboards** with **ApexCharts** and **lazy loading** for critical operational metrics.
- Maintained and evolved the component library with **Storybook**, benefiting **5,000+ service providers**.
- Integrated with **REST APIs** using **React Query** for efficient asynchronous state management.
- Fixed **critical bugs**, reducing interface-related support tickets by **40%**.

Drakkar Precision Agriculture, Frontend Developer (Intern/Junior) — Aug 2021 – Aug 2024

- Developed three **internal HR systems** (IF, IPA, and Pricer) with **React** and **Material UI**.
- Directly impacted **1,200+ clients**, **5M+ hectares**, and **3,700+ farms** served.
- Managed over **1.5M+ maps** generated annually through process optimization.
- Refactored the entire app with **Ionic (Angular)**, reducing loading times.
- Implemented **Google Maps API** and **heatmaps** for geospatial analysis of crops.

Verden - Rastreando Soluções, Frontend Developer Intern — Oct 2023 – Jan 2024

- Developed the **Locus** application with **React (TypeScript)** and **Material UI**.
- Integrated with **Google Maps API** to monitor **50+ types of agricultural sensors**.
- Implemented **interactive charts** with **React Charts** for real-time analysis.
- Created a **responsive** interface with **Styled Components** and **Tailwind CSS**.
- Optimized **performance** for mobile devices used in the field.

Teaching Assistant - PET SI, Federal University of Santa Maria — May 2021 – Sep 2023

- Led **technical workshops** for Information Systems students.
- Maintained the **group's website** and organized **academic events**.
- Promoted **study groups** and fostered collaborative skills.

Education

Federal University of Santa Maria (UFSM), Bachelor of Information Systems — 2019 – 2024

Certifications

- **Complete Web & Mobile Design** - Udemy
- **Adobe XD, UX Design Heuristics, UI Design, CSS Grid Layout, CSS Flexbox, and Complete Web Design** - Origamid

Projects

Book Exchange System — Link

- A platform for **literary democratization** selected in a competition based on code quality.
- **Responsive** interface for exchanging academic materials among students.

Lumni - A Quiz for Software Engineering Education — Link

- **Quiz** application developed to assist the learning of undergraduate students.
- **Question and answer** system with immediate feedback to reinforce learning.
